Welcome"*

Your Wellness Is Our Priority

MJD Wellness and Community Center, Inc. is a nonprofit 501c (3) organization opened its doors in 2015. MJD provides care to the underserved population in Miami Dade County and surrounding areas.

The agency model relies on the delivery of compassionate, enthusiastic healthcare exceeding patient expectations every time, regardless of their cultural, financial, social status or sexual orientation.

MISSION

Our Mission is to promote health and wellness through advocacy, education, sharing resources and access to health care services.

VISION STATEMENT

MJD Wellness and Community Center vision is:

- *Improve overall health and wellness.*
- *Increase awareness of factors and resources contributing to well being.*
- *Inspire and empower individuals to take responsibility for their own health.*

OUR PROGRAMS

We provide primary care services and different advanced screening tests and referrals. Our screening services include annual checkups, diagnostic and laboratory services. MJD specialist network is large and affordable for insured and noninsured patients. "With or without insurance. You are **WELCOME.**"

- **HEALTH SCREENING**
- **WELLNESS EDUCATION**

A combined of behavioral, mental health and substance abuse services for those individuals in need for help. Services include one in one, group and family therapy. mental health and substance abuse professionals are helpful in detangling symptoms and keeping treatment on track. For individuals with both behavior and addiction issues.

The full-service food pantry is here to help alleviate food insecurities. The healthy fresh pantry is available for the residents of Miami-Dade County on a weekly and monthly basis . **Appointment Required**
Tuesday-Friday 9am-4pm
Phone: (786)534-3896

"Be safe" HIV/AIDS/ STD'S Program provides a comprehensive system of HIV and STD'S primary medical care, essential support services, and medications for low-income people with HIV. The program include prevention.

- PrEP Pre-Exposure Prophylaxis
- PEP Post-Exposure Prophylaxis
- Risk Reduction Counseling, treatment and counseling.

MEDICATION MANAGEMENT

- Ensure patients are taking correct dosage.
- Observe patients taking their medication if needed.
- Use current insurance or provide alternate payment resources.
